DEEPER MEANING

A magnetic soul stream, the Red Thread of Fate, It may stretch, it may bend, but will never ever break It connects us all in a web of mathematical probability It is encoded in plain sight, if only you know how to see

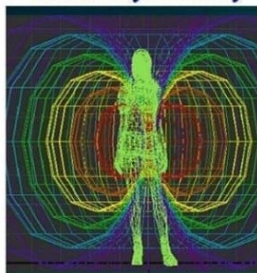

Observe signals and sounds, then self-reflect while still Your life is a puzzle that you assemble with free will Your awareness is a dial which empowers your life Seek deeper meaning, it is always there, it is rife!

You are a unique personality, a perspective of all that is This makes you a Divine Co-creator of life and all that is. In the complex fractal vortex of love, light and choice, You are the black hole of calm observation and voice An eternal soul stream which forms it's own story Acting out it's experiences, from beginning to infinity.

Increasing your awareness is the key to fulfillment Harmonize with your dreams, act on your excitement Through the great language of music, we communicate Using patterns of sound and emotions we all can relate Break free from the mundane and keep on dreaming Choose love, choose infinity and seek deeper meaning.

I Choose Infinity!

WE WILL BE HEARD

I am, I see, I hear, I breathe, I feel, I speak, I sing, and I know that you do to... In this One infinite reality I know we will be heard

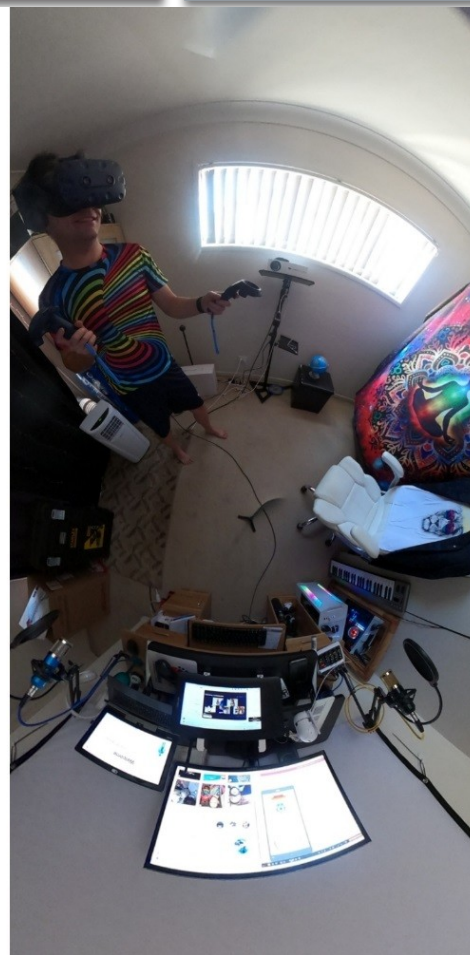

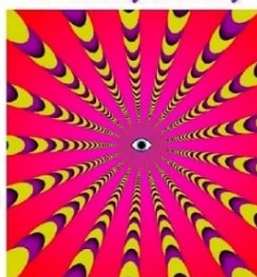

Believe in the best, give it your all, and love will manifest. We are right here, We are right now, **ALIVE!** Step up, Man up, Sing your piece, Give your all, know who you are, Make your mark!

Embrace this moment, and all that you are, All that you have been, and all that lies ahead, Because what you hold in your mind Is exactly what you're getting Shhhhhh... Listen Close... You... You Are... You Are Infinite, Believe it, Become it, Love it. We are right here, We are right now, **ALIVE AND DIVINE!** We are **ALL** unique, perspectives of, All that is. Traversing space and time at the speed of light, While the illusion of our senses say we lie still in the night We are infinitely expansive electromagnetic complexity Co-creating our divine, infinite destiny.

We are right here, We are right now, **ALIVE!** Know who you are, Make your mark, We will be heard!

I Choose Infinity!
